Court Hears Appeals

The court of revision for the Town of St. Albert was held on Oct. 2 and eight cases were heard.

Present were: councillors Bakker, Gibbon and de Bruijn, assessors A. H. Russell and Mr. J. Frost, Department of Municipal Affairs; clerk of the court, J. M. Fleming; recording secretary, Mrs. M. Lovatt and chairman, J. Bakker. J. E. McDonald representing the Grey Nuns of 9810-165th St., Edmonton regarding Lot 13 Block 12 Plan 2550 N.Y.

The basis of appeal was property is exempt by private bill and therefore not assessable and assessment or valuation is too high. Mr. McDonald asked how the assessment was arrived at. Mr. Russell stated a detailed written analysis could be provided to Mr. McDonald. The appeal was denied but the assessor will supply details of the assessment in writing to Mr. McDonald.

J. Hryniew - 78 Sunset Blvd., said the improve-

ment assessment was too high and wrongly assessed.

Mr. Russell stated that there had been a new construction since the last assessment which had been taken into account on this assessment and also certain errors had been corrected. This was denied.

G. L. Bruce - 44 Stanley Drive felt he was assessed too high. The assessor advised that the assessment was all right and in line with other similar properties and appeal was denied.

Mr. and Mrs. M. Dronyk - 62 Sheridan Drive appealed high assessment and no depreciation being allowed.

Mr. Russell advised that depreciation would be allowed on the next general assessment. Appeal was denied.

Gordon Wilkinson - 38 Stanley Drive appealed, assessment and no depreciation.

He was advised that depreciation would be allowed on the next general assessment. Appeal was denied.

Mr. and Mrs. E. Winquist

- 10 Sheridan Drive, appealing too high assessment, lost their appeal.

Mrs. Winquist stated that she understood there would be no depreciation. She questioned the dimensions but was advised this would make no difference as the values used were taken from the previous assessment card.

C. Mustaklem - 45 Stanley Drive felt he was wrongly assessed and it was too high.

Mr. Mustaklem asked for an explanation on the calculation of the assessment. Mr. Russell explained. Appeal denied.

F. Winters - 2 Grenfell Ave., said that the construction of the swimming pool at 3 Grenfell Ave., has reduced property values.

Mr. Winters advised that the location of the pool caused a problem due to traffic into the pool parking lot causing dust, noise and general nuisance of gravel, candy wrappers and so on. He suggested that the paving of the lane would improve

the situation partially.

The same depreciation allowance that was set for No. 1 Grenfell by the assessment and appeal board was allowed for this property.

The calculations were made and the following assessment was produced:

Land	1,670.
Improvements	6,890
Total	8,560.

Mr. Russell who was assessor in St. Albert for a number of years has been re-assigned by the department of municipal affairs and is now operating on the Vegreville line. John Frost replaces him here in St. Albert.

Withdrawal

Derek Browne has withdrawn his nomination to run for the Protestant School Board in the Oct. 18 elections in St. Albert.

It was "Meet the Candidate Night" in St. Albert on October 3 when the Chamber of Commerce gave the town residents a chance to hear each candidate running for election to council on Oct. 18. From left to right are: F. J. Lukay, Dick Wheatley, chairman Bill Penrose, Rene Kambouroff, Peter Zuidema, Don Bull and John Bakker.

"Mio Kiskisewan" A Unqualified Success

by Hennie Stibbe

From the opening scene when the Spirit descends down from the heavens to the exciting climax, complete with fireworks, Mio Kiskisewan, the St. Albert Historical Pageant, completely held the undivided attention of the audience. Crowds at opening night, despite a strong, bone chilling wind, were estimated at fifteen hundred.

Director Philip Silver guided his cast of some 90 St. Albert students smoothly through the one-hour long production. Mr. Silver took on the gigantic cast of directing the 90 youngsters, most of whom had no previous acting experience, and in just three weeks moulded them into a disciplined, enthusiastic group of actors. Without exception the youngsters played their parts well. The play was written by Keith Hamilton of St. Albert, based on extensive research by Patricia Hamilton. Mr. Hamilton who studied the different characters and background research extensively, and has come up with an entirely new, most effective approach to pageantry. Produced by Twilight Productions the pageant was under the sponsorship of the St. Albert protestant separate school district and the St. Albert public school district.

CHILDREN THANKED

Following the performance on Sept. 30 Twilight Productions held a little party for the children who took part in the pageant.

The party, which included the serving of pop and doughnuts, was held in the dressing rooms. The children were sincerely thanked for the part they played in the success of the pageant. In turn the children thanked producer P. Silvers and all the members of Twilight Productions and gave them a rousing cheer.

About 100 children took part, 80 in the cast, 12 looking after properties and 10 acting as ushers and looking after programs.

Found Articles

Attached is a list of articles turned in and held by the R.C.M.P. in St. Albert. It is requested, that in the best interests of the general public, the items shown be listed in your weekly paper.

Should anyone have lost an item of similar description may the R.C.M.P. be contacted between 10 a.m. and noon on Oct. 14 at which time the articles can be viewed. The articles listed held at the St. Albert Town Pump House situated near Vital Grandin School can be viewed at the above noted time. The articles held in the main exhibit locker can be viewed at our office at the time and date shown above.

The following articles are in the St. Albert Town Pump House: bicycles, girls-three boys-eight. Tricycles-two. Power Lawn Mower-1 without motor - serial # of machine is #4261. Kiddies wagon-one red. Snow skis-one elite super (Noss model) Tobaggon, approx. 6' in length - two.

These are in the main Exhibit Locker of Detach-

FIRE

Fire Prevention Week is October 8 to 14.

This is the week set especially for checking your homes, businesses and so on for any potential fire hazards and correcting same when found.

It is against the fire prevention by-law to store any gasoline in a home, the fumes from flammable liquids are extremely dangerous when reaching source of ignition such as pilot lights in hot water tanks or furnaces. This causes terrific explosions and fires and needless loss of life and property.

The Fire Department is having Open House at the fire hall during Fire Prevention Week, with a display of common fire hazards that can be found in the home.

Take time to visit the fire hall and familiarize your-

Saints & Sinners

The Saints and Sinners Square Dance Club are organized for another season of fun and frolic. The executive plans to get things off to a gay start with a Roaring Twenties dance in the Albert Lacombe School at

8 p.m., Oct. 7.

The intermediate club dances regularly the first and third Saturdays of each month under the able calling of Syd Deguire.

Anyone interested in a beginners club should drop in at the club house (next to the swimming pool) Sept.

29 at 8:30 p.m.

Classes will be held every Friday from 8:30 to 10:30 p.m., everyone is welcome especially those with two left feet and hands to match. For further information call President Ken and Tillie Gray at 455-5095.

The club is embarking on

a new venture this year and in cooperation with the recreation Department will sponsor childrens classes for those 12 years and up, also meeting at the club house each Friday from 6:30 to 8:15 p.m. Interested boys and girls or parents contact the Grays.

Lagoon Contract Awarded

Minutes of Special Meeting of Council held on Sept. 18, 1967.

Present were: Deputy Mayor Gibbon and Councillors Bakker, Wheatley and de Bruijn, J. M. Fleming, secretary-treasurer; S. I. Billings, assistant secretary-treasurer, J. Maandag, town engineer, A. Gate, superintendent Parks and Recreation Department; L. Abram, development control officer and J. Mustaklem, recording secretary.

Deputy Mayor Gibbon brought the meeting to order and noted that a special meeting of council had been called in order to consider the Budget, Finalizing the By-law for the mill rate, By-law for the Ice Plant Plebiscite and Returning Officer relating thereto and to receive reports of tenders for sewage lagoon.

Mr. Fleming informed council that the Local Authorities Board had approved the budget as submitted by the town of St. Albert and that a board order would be issued pending a final look at the budget. Council were then passed by-law 25/67 being a by-law finalizing the mill rate could be given

second and third reading.

Councillor Bakker again stated his opposition to the 73 mill rate. Councillor Wheatley reiterated that he was sure that the town would be in a better position with a cash surplus than it had been during the many years when it operated on a marginal budget.

Mr. Billings in reply to a query from the deputy mayor stated that the tax notices should be out within thirty days.

Mr. Gibbon asked council if they felt that the subject of amalgamation with Edmonton should be considered and a plebiscite entered in the coming fall elections to find out the opinion of the electorate. Council discussed this subject for some time and a general consensus was reached that council and the electorate are not sufficiently informed at the present time to be able to point out the implications of votes for or against amalgamation. They felt that it would be better to wait until all avenues have been explored before entering into a plebiscite. Council felt that the meetings with the provincial government should take place

first and the government's opinion regarding this matter should be asked. Councillor Bakker stated that he thought that we were morally obligated to have a plebiscite but not until such time as we are better informed.

Mr. Fleming introduced by-law 32/67, being a by-law to provide an ice plant for the arena, and stated that the by-law had been given first reading and now a motion should be made to place it before the electorate. This was passed.

FOR SUPER-JET AGE?

Your next passport could look just like a credit card with your picture on it. The Financial Post reports. And if you are on a Canadian airline international flight into Montreal later this year you may find a government inspector of immigration, health and customs on board with you. He will be processing passengers during the flight.

The Financial Post says that this means that, when the plane sets down, most passengers will walk straight into the terminal. Only those selected for detailed customs inspection will need to pass through the normal international arrival procedures.

These are two of the important proposals being discussed by federal officials in the world-wide campaign to speed up handling of airline passengers.

They are casting anxious eyes on the traffic jams going to result if the 400 seat jumbo jets are handled without radical changes to the present system.

\$50 FINE

Pleading guilty to a charge of illegal distribution of Irish Sweepstake tickets to an agent in Wainwright, between Feb. 1 and June 1, Jerry Kinsella of Calgary was fined \$50.

The Town Engineer presented a report to council giving the names and tender amounts of all firms which had submitted tenders for building pond #3 for a sewage lagoon. He recommended that G. C. McLeod and Co., Ltd. be awarded the tender and that the other items as listed in his report be accepted by council. There followed a lengthy discussion on the merits and disadvantages to various methods of sewage disposal as well as the likelihood of contamination. The consensus was that the lagoons are by far the cheapest method of disposal and as they are rigidly supervised by the provincial government they are a sanitary means of elimination of sewage.

Contract went to G. C. McLeod and Co., Ltd. Construction on the lagoon will commence immediately.

The town was authorized to enter into agreement with C.M.H.C. for borrowing of money for the purpose of constructing sewage lagoon #3.

They Met The Candidates

St. Albert citizens, but not many of them, met the candidates who are seeking a seat on council in the Oct. 18 elections at a meeting held in the community hall on Oct. 3.

The meeting was sponsored by the Chamber of Commerce to give all a chance to meet and hear the candidates. Bill Penrose acted as chairman. Each candidate was allowed to speak for 10 minutes and a question period followed.

DON BULL
Mr. Bull drew the spot as first speaker. In a few words he said his issues were high taxes, civic red tape and government representation for the majority. He felt it all important that St. Albert restore investors' confidence.

RENE KAMBOUROFF

Mr. Kambouroff, the second speaker, said his business had taken him into many communities where he saw the problems and solutions similar to those in St. Albert. He felt his experience in the financial field should be a benefit on council as the financial end seemed to be the main trouble spot. He was not willing to go out on a limb for amalgamation but he said he would like to study it further before making a decision. After this study he would be for it if he thought it would be good for the town.

He felt a covered arena was far overdue and if elected he said he would be for it to be built as soon as possible. "We should still keep after a university even though it has been tabled by the government", he said. In closing Mr. Kambouroff

said he had the time to spend at council meetings and working on town matters and would co-operate with other councillors if elected and try his best to reduce taxes.

PETER ZUIDEMA

Mr. Zuidema has been very concerned about the development of the town and the \$755,000 law suites against it. He felt if these were settled then investors would again be interested in St. Albert. The town should be looking for high cost housing for it costs as much to bring utilities and so on to a low cost house as a high cost one but the tax differential is great. There are 260 acres of level well drained industrial land near a railroad and water and gas supply which should be developed and recreational facilities should be improved, Mr. Zuidema said. He also felt that more use could be made of the curling rink by adding a floor so it could be used for social affairs, roller skating and dances.

FRANK LUKAY

Mr. Lukay said he had

Continued on pg 6

Pay as we go

Favors Covered Arena

Must Accept Responsibility

Watched Rising Mill Rate

A University Would Help

Higher Taxes Bring Amalgamation

During the past few years I have become increasingly concerned over the direction the town has taken. It needs a more business-like approach to town finances and a first step will be to get the town on a "pay as we go" basis.

We can attract new commercial development but only after we have halted the increasing mill rate.

I believe that I can offer a fresh new approach to the problems of managing a growing suburban community. As a businessman, I have a very particular interest in the progress of the town.

I sincerely ask for your vote on Oct. 18.

signed Peter Zuidema.

Peter Zuidema is a 28 year old businessman. He has operated the Grandin Bakery for the past five years and now seeks election to the town council.

Mr. Zuidema has served as a member of the executive of the St. Albert Chamber of Commerce for four terms and holds the office of president of the Grandin Shoppers' Park Businessmen's Association.

He is an active member of the Curling Club. The Zuidemas have a one month old daughter and make their home at 9 Birch Drive in St. Albert.

I am 42 years of age, married and have a family of four. I have resided in St. Albert for seven years. I was born and raised in Saskatchewan and received my education in Regina and the University of Alberta. I am a public accountant and have my own accounting practice here in St. Albert. I am an active member of the St. Albert & District Chamber of Commerce and also the St. Albert Lions Club.

I am letting my name stand for councillor for the town of St. Albert because I feel that being a businessman in the town I can be of service to the taxpayers as I am more readily available. I also feel that my accounting background would be an asset to council as it seems that the greatest problem the town has, is finances.

A lot has been said about amalgamation and to this I have an open mind and am prepared to study this as to whether or not this is the answer.

I am in favor of the covered arena being built in town as soon as possible.

I believe that more effort should be made to have the senior governments to locate government buildings in our town, such as the highways maintenance shops in Edmonton, the research building in Clover Bar.

Although the extension to the University of Alberta has been shelved temporarily we should still keep the government aware that St. Albert is the best place to build along with any other schools of higher learning such as N.A.I.T.

signed Rene Kambouroff.

if our way of life is to survive. Too many kids are getting nowhere in school and going nowhere in life.

These are only a few of the areas that concern us all. When I served as secretary-treasurer of the school district it was obvious to me that the problems of financial control and program could only be solved if a long term plan for the education of our pupils is made and carried out. The coming changes in the roles of our schools must begin with parents, who know what is needed by their children as individuals instead of the present method of treating all pupils alike regardless of their differing abilities and interests.

As a trustee I will work to use the experience I gained as secretary-treasurer of the district to:

- (1) establish realistic programs suited to our children's needs,
- (2) establish the priority of spending and then stick to the budget,
- (3) get a change in the method of taxation for school purposes so that the burden will be more equally shared by all Albertans.

signed Bill Penrose.

The citizens of the town of St. Albert are presently burdened with a tax rate which is too high to make living in this community pleasant.

A large portion of the burden is beyond the control of the town council and the portion that is in their control has increased, not by council's wishes alone. The citizens of St. Albert have contributed to the increase by the demands they have placed on council.

It is time that we realize that we must accept our share of the responsibility and effectively correct the situation.

The problem will not resolve itself, nor can we rightly expect someone to come in and save us from our dilemma. Annexation with the City of Edmonton may help to relieve the tax burden, but what will this do to our pleasant community? Answers to this are not available at the present time. Further, how soon can annexation be accomplished if proceedings start immediately?

This process may take several years, and in the meantime, the residents are paying heavily for the incurred debts.

The only effective solution to the problem is to establish a long range program of careful expenditures to bring the tax rate down on par with the City of Edmonton.

Reduction in taxes is feasible if we:

1. Delay the arena to some future date when the financial situation is brighter.
2. Applying the monies now committed for the arena to pay off our debt service.
3. Reaching an equitable arrangement with the Provincial Government in the sharing of the education costs.

F. J. Lukay, B.Sc., M.Sc., Professional Engineer, age 35, resident of St. Albert for 5 years.

Instructor at Northern Alberta Institute of Technology since 1963. Involved in engineering practice with DuPont of Canada in Montreal and Whittaker Carswell & Co. Ltd., Edmonton from 1956 - 1963.

F. J. Lukay.

Kindergarten In Program

I am a 37 year old St. Albert businessman, and have served a three year term on the school board as chairman of the administration committee, a member of the interpretation and grievance committee, and chairman of the school board's negotiating committee for both the Canadian union of public employees and the Alberta Teachers' Association.

THIS PAGE IS PRESENTED AS A GAZETTE COMMUNITY SERVICE FOR OUR READERS
The Gazette

As a well known St. Albert businessman I have accepted nomination in the current town council election.

The major issues of my campaign are high taxes, civic red tape and government representing the majority.

I have been in the television business for eight years, have taken a very active interest in the civic government of St. Albert and have watched with dismay the rising mill rate.

The tax increases are a result of the discouragement of residential, industrial and commercial developers, civic red tape and poor planning by the town council and have resulted in high residential taxation and lawsuits.

The solution to the problem is a democratic businesslike approach.

I attended San Francisco City College after serving in the U.S. Army in Italy. After three years in the aircraft industry I served in the Merchant Marine for seven years and travelled extensively. I have since been the proprietor of St. Albert Television for seven years.

Signed Don Bull.

As an active member of the Alberta school trustees association and at last November's Convention in Calgary I was the mover and main speaker on the motion asking the provincial government to bring a kindergarten system into the foundation program. We are the only province in Canada that does not give any financial aid to kindergartens. If re-elected, I will continue to press for action on kindergartens through our association which supported my motion last year.

This election is really a vote of confidence for the present board. We have been working much better as a team over the last year and I feel that we have a great many accomplishments. However, there is still much to be done.

I will work for a change in board policy toward dress regulations and lunch hour policy. The board has both these matters under consideration and I hope that the new regulations will be more in line with what is acceptable in other schools and a policy which recognizes the special problems of a suburban community.

My wife Joanne, and I have three school age children, and make our home at 37 Glenmore Crescent in St. Albert.

I sincerely ask for your vote on Oct. 18.

Robert Russell.

First of all I would like to express my appreciation to the Gazette for allowing the candidates to comment on the issues in their issues.

The prime problem is the 20% increase in taxes this year. The increases due to the school boards, 5 mills, the province with the foundation plan, 2 mills and the other boards, 1 mill, council could not do anything about. However beyond the 70 mill level council is responsible. I disagreed with my colleagues to wipe out a cumulative deficit as well as budgeting for a surplus of \$40,000 all in one year.

Several other communities, with less services than St. Albert, have equally high mill rates, however if we compare with Edmonton's 52 mills our rate looks grim. St. Albert does not get the equivalent of 19 mills in utility revenue and that makes quite a difference.

What are we trying to do about it? We are making progress with our proposal to the government that a grant be paid for the municipal services provided to exempt properties. We are trying to obtain a percentage of the revenue of Calgary Power which we already receive from Northwestern Utilities.

I have tried hard to get more development in the town. A university, the AGT building and the research council laboratories are only some of them. A fourth university is not being proceeded with by the province at this time, due to the lack of capital funds. We have not won, but we have not lost this battle either. A new brief will now have to be prepared to point out the advantages of an early determination of the location, so that well prepared, cost saving plans can be prepared for the time that the province can proceed.

Since I feel I can make a contribution as part of a team of seven on council to the town of St. Albert, I am asking for your support on Oct. 18, 1967.

signed J. J. Bakker.

Proud of Results

In seeking re-election to the St. Albert Separate School Board I would solicit the support of the electorate and bring the following points to their attention.

When the Separate School Board was formed in 1958 I was one of the founding members and have served, except for a three month period, continuously ever since, latterly as chairman.

During this nine year period of tremendous growth I have only missed six meetings and as a result am well acquainted with all the problems and difficulties that have been met and overcome

All St. Albert property owners will be unhappy when they receive in the next few days their 1967 tax notices. Taxes will be 18% higher than last year. Because of this, amalgamation with Edmonton will be demanded by many residents.

I am disappointed by Council's failure since 1962 to get an answer from the provincial government on whether St. Albert will be a separate Town or suburb of Edmonton. At present the town is drifting and residents are facing continual yearly tax increases. If the Provincial municipal experts had paid attention to the evidence in the 1956 Alberta McNally Commission Report on Metropolitan Development, they would have realized that skyrocketing taxes would result when town development of low and average price homes, no industry, municipal ownership of money-losing water and sewer utilities, and private ownership of profitable electric, telephone and gas utilities was allowed.

If the town council cannot get an immediate promise from the government of a fair share of Edmonton metropolitan area tax and utility revenues, then the only thing left is to press for immediate annexation by Edmonton and Jasper Place and get our residents some tax relief.

In 1966, I prepared for council a report on these problems. If I am re-elected I intend to seek an answer from the provincial government as soon as possible. Unless we can reduce our taxes the town has no future. Because I now have three years experience on council I can make a better contribution to the town's business

signed Richard Wheatley

and am very proud of the results obtained in the academic field by our students and the school and class room facilities provided by the board which are second to none.

I believe that our district now requires development in the adult education and vocational areas with a view to providing further education through evening classes for both adults and students, and if re-elected will work towards this end.

As chairman of the Joint Use Committee which consists of the Town of St. Albert and the two school boards and chairman of the financial committee of the school board I am well aware of the heavy burden education places on our rate payers and have always striven to keep these expenditures within reasonable limits.

I am associate partner in the National Insurance Brokerage firm of Reed Shaw & McNaught and have lived in St. Albert for the last twelve years.

signed Ronald Harvey.

Citizen's Concern

Where do we go from here?

Most Separate School electors and ratepayers are becoming concerned that increases in pupil enrolment, staff and salaries, and costs of buildings and materials are pushing our taxes up and ever up. Although those increases seem inevitable there are a few things that we can do about them.

School trustees must continually have to show us that they are squeezing every nickel twice before letting go of it, and that their spending is on the things we electors consider important to the education of our children. Our trustees must continue the effort to convince the provincial government that a greater part of the costs of education should be borne by the general revenues of Alberta, and not by taxes on our properties.

As parents we all want our children to matriculate. The plain fact is that less than one out of five do go on to university. It's about time our district looked after the other 84% of our students by setting up good business and vocational programs to provide the majority with some realistic preparation for adult life. Somehow our schools fail to teach our children the background of privilege and responsibility of daily life in Canada that they must have

safe arrival of a baby boy

Patrick, son of Mr. and Mrs. Norman Waunch of 40 Belmont, was married recently to Miss Beatrice Hartt of Edmonton. The ceremony took place at the United Missionary Church. Wedding guests included Mr. and Mrs. R. McNally from Lake Windermere, B.C., and Mr. and Mrs. D. Waunch from Haney, B.C. Mr. and Mrs. Patrick Waunch will make their home in Edmonton.

A Centennial Citizenship Ceremony was held at Paul

Kane High School recently Judge O. W. Allen of the Citizenship Court presented the students with Citizenship Certificates. Deputy-mayor R. M. Gibbon brought greetings from the town.

Bob Prather called at the house the other evening with Lions light-bulbs. Bob, who has taught at S.A.M. for the past few years is on leave of absence to attend university. Wanda and Bob have sold their home and live in the Windsor Park district of Edmonton now. Loyal Lion Bob commutes to St. Albert for meetings and would like to move back to town next year.

Two St. Albert residents have contributed to the recently published book "Alberta—a Natural History". They are Dr. Robert Green of 14 Gilmore and Thomas E. Berg of 56 Gladstone. Dr. Green, associate editor, contributed photography and technical illustrations. Dr. Green is a native of Northumberland, England and is chief of the Earth Sciences Branch of the Research Council of Alberta. Mr. Berg did extensive photographic work for the publication.

Mrs. Robert McGuire was in town visiting friends last week. Creta served as centennial secretary before moving to Calgary a few months ago. The McGuires lived in the Mission and Braeside districts.

Friends of Mr. and Mrs. Stan Dalzell, formerly of

6 Salina Drive, will be sorry to hear of the recent loss of their two day old baby boy. The family, who recently moved to Nanaimo, B.C., were active in St. Albert Community where Stan was principal at Albert Lacombe School for a year and Mary was an executive member of the C.W.L. Their daughter Anne was a popular entertainer here in Highland Dancing.

Mr. and Mrs. A. Alain entertained the production staff of "Mio Kiskisewin" at their home at 12 Grandville following Friday's premiere showing of the pageant

Mr. and Mrs. John Hermans of 82 Gordon had some pretty colorful guests last week. Several members of the MacKenzie Canoe Expedition, including Mr. and Mrs. Adolf Ikert of Pouce Coupe, B.C., stopped of at the Hermans' on their way home from their canoe trip to Expo.

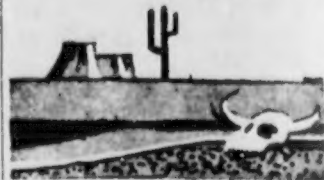

Philip Upright of Ball Avenue will be seen as the chief in Betty Wilson's "Raiders on the Wind". The play opens Oct. 10 at 7:30 p.m., and will run until Oct. 14 in the Edmonton Centennial Library Theatre. The production is especially designed for young people, and only teenagers will be admitted to the performances.

Seen at "Mio Kiskisewin" a young lad about six walked up to the front, carrying a huge sleeping bag. He unrolled it, climbed into it, zipped it up and settled down to watch the pageant

In pure comfort.

Items for this column may be telephoned to Hennie Stibbe, at 599-7448 or brought to the Gazette office Perron Street. There is no charge and we welcome news of the activities of St. Albert residents each week.

BEAT DRY WINTER HEAT!

Comfort depends on controlled humidity. Dry winter air causes a parched feeling in the nose and throat, dry skin, dry hair and static electricity. Our new power humidifier stops this. Give us a call, we'll install it on your furnace in two hours, then give your furnace a free inspection. No wasted water, it all goes into your air. Adds more than three pints an hour if needed. This unique comfort aid adds just the amount of moisture you set it for.

GOURMET COOKING

At the special request of a number of ladies in town a short course in gourmet cooking has been arranged by the Department. This has been made possible through the courtesy of Northwest-ern Utilities and we have been very fortunate indeed to obtain the services of Mrs. Joyce Pearson, Mrs. Pearson, as well as being home service director for the Gas Company, is also very well known for her regular radio programme.

The course will consist of two films and lectures which will take place on Oct. 16 and 23 in St. Albert and then on Nov. 13 and 20, demonstrations will be given in the Home Service Kitchen of the Milner Building, 104 Street, Edmonton. This time and location of the St. Albert lectures will be announced in this column next week, and there may be a small nominal charge.

We already have a number of applicants for this course. Space is limited - particularly for the demonstration part of the course - so it's a case of first come, first served. If you want to register, or would like further information please phone or call at the department in the town hall as soon as possible.

SWIMMING

We have just received some more cards and awards from the Red Cross Society and the Royal Life Saving Society. Anyone who has not yet received through the mail or picked up a card or award earned during the summer is asked to call at the administrative offices of the department at the town hall.

DRESSMAKING

Want to make your own clothes? Then join the beginners' sewing class on Tuesday evenings at the clubhouse at 8 p.m. You'll learn basic sewing techniques and learn to use a pattern and so on. If you can sew already but want to improve, then the more advanced class is for you on Mondays in the clubhouse at 8 p.m. For further information regarding these classes phone the department at 599-6601.

MILLINERY

Millinery classes will commence on Oct. 11 at 8 p.m. in the clubhouse.

Wheat-War Rumblings - Prairie farm spokesmen are accusing the U.S. of cutting its wheat prices - and of jeopardizing the Kennedy Round wheat-price deal which becomes effective next summer. John Schreiner writes in The Financial Post. Trade Minister Robert Winters has asked the U.S. to help bring stability, and earlier price levels, back into the market. Top grade Canadian wheat is now selling for 22¢ bu. less than five months ago, and 2 1/2¢ bu. below the world minimum price agreed during the Kennedy Round tariff talks. Farm spokesman, The Financial Post says, are worried because there is no legally binding world agreement on wheat prices in effect at the present time.

ision of the fund and Barney presented it to chairman Bill Marshall.

Each of the seven divisions got underway with passes from Eskimo players the Eskimo receiver taking the ball to the division captain. Coach Neil Armstrong had warned his receivers to make sure and catch the ball for the sake of dishes and guests. However, as in all football games, results were not 100%. A pass made all the way across the room was thrown low to avoid hitting the lights. Quarterback Frank Consentino did not have a chance of reaching it but it was neatly grabbed by a guest, no dishes broken and no coffee spilled.

For the grand finale Neil Armstrong kicked off the whole campaign -- a football came barrelling into the crowd and after encountering several tables was finally stopped by an agile guest.

The campaign was now underway -----give when your canvasser calls, 45 worthy services look to you for their very survival.

St. Albert is part of the Greater Edmonton U.C.F. Campaign.

UCF "Kicked-Off"

The 1967 \$1,493,840 United Community Fund was officially underway after a "kick-off" breakfast held at the Macdonald Hotel on Sept. 25.

Gary Campbell was chairman and introduced 28 head table guests which included St. Albert residents Ken Wright, chairman of the UCF public relations committee and Ray Gibbon representing the town of St. Albert. The head table was arranged by Lloyd Hopkins comptroller of UCF staff, also of St. Albert.

Mayor Vincent Dantzer of Edmonton issued a challenge to the mayor of Calgary to see which city would go over the top first. Mayor Dantzer who already has the wheelbarrow, feels that Calgary has not got a chance so he has made the odds "double or nothing".

Following speeches words of encouragement and entertainment by the Jasper Place School Band, Stanton and Peddie of Miami, Florida and the Hank Demarko orchestra, the action really started. Randy Kerbow passed a football across the crowded room to Barney Therrien. This football represented the Corporate div-

The campaign is divided into the following divisions listed with their quotas:

Corporate	327,445

2:00 p.m., Oct. 8 at Holy Cross Cemetery, St. Albert Trail.

Because of the Pageant Sept. 29 registration for Cubs and Scouts was postponed to Oct. 6 at 8:00 p.m., in the church hall. Parents are asked to be on hand for this important organizational meeting.

In the past ten years... 812 thousand fires in Canada claimed five thousand eight hundred lives and caused damage of close to one and a half BILLION dollars. Remove fire hazards from your home.

Every week fire strikes nearly one thousand Canadian homes....yet a few simple precautions could have prevented nine out of every ten of these fires.

Wednesday, October 4, 1967

St. Albert Kinsmen officers shown from left are Mr. A. Jones, National President, Mr. D. Sinclair, St. Albert President and Mr. M. Mormyluk, Director.
Kinsmen Photo.

The first meetings of the new Kin year was a joint affair with both the Kinsmen and Kinettes attending.

The main purpose of the meeting was to install the new slate of officers for the coming year.

On hand to help with the installation ceremonies was the National President Art

Jones and the National Expansion Chairman, Doug Foster both of Edmonton. Kinsmen executive for the 1967-68 season are Don Sinclair, president; Jim Ir-

win, Bill Hite, Marsh Mormyluk, directors; Ken MacRae, secretary; Tom White treasurer and Ross MacFarlane registrar.

Kinette executive for the 1967-68 season are Mrs. J. Irwin, president; Mrs. G. Erickson, vice-president; Mrs. C. White, secretary; Mrs. L. Calkins, treasurer; and Mrs. B. Mormyluk as registrar.

Plans for an energetic year are already underway. A successful Peanut Night was held on Sept. 29. Work on the Kin Tot Lots is progressing and plans for the administration of the minor hockey leagues in St. Albert are also well underway.

Due to the tremendous response from last year's kiddies shows, the Kinsmen have decided to carry on with "Kin/Cinema for Kiddies" this year. The first show will be held on Oct. 7 at the Father Jan School at 2 p.m.

As was the case last year, extremely good children's shows will be shown, catering for those 12 years and under.

Directional Arrows

The council of the town of St. Albert at their Sept. 25 meeting decided to purchase directional arrows for various parts of town.

Those attending the meeting were: Councillors Gibbon, Wheatley, Donalds, and de Bruijn. J. M. Fleming, secretary-treasurer; S. L. Billings, assistant secretary-treasurer; J. X. Woodroffe, Edmonton regional planning commission, A. Gate, superintendent parks and recreation department; J. Maandag, town engineer; L. Abram, development control officer and Mrs. J. Mustaklem, recording secretary.

In the absence of Mayor Fowler, Deputy Mayor Gibbon assumed the chair. A letter from the Chamber of Commerce asked for several directional signs to be erected to point out the business areas of the town. Mr. Donalds stated that the letter was somewhat confused from what the exact intention of the Chamber of Commerce had been. He clarified the matter by stating that their intention had been to have four signs, two at the intersection of Ball Ave., and St. Albert Road and two at the intersection of St. Anne Street and St. Albert Road. Council also felt that signs should be posted at the intersection of Grandin Road and Ball Ave., since this area might pose a problem for strangers.

The Town will have made or will purchase five directional arrow type reflectorized signs to be installed at Ball Ave., and St. Albert Road, at St. Anne Street and St. Albert Road and at the intersection of Grandin Road and Ball Ave.

A letter from the Chamber of Commerce asking that minutes of all Council meetings be sent to them was read. This will be done.

Chamber of Commerce letter, regarding request for annual grant. Since there were two councillors who were Chamber of Commerce

members present this was tabled until a full council was present.

Mr. Fleming, introduced to council the urban renewal scheme application as prepared by the Edmonton regional planning commission. This was adopted.

Council discussed Mr. Billings' report on this subject and debated whether or not the garbage charge should be removed. Councillor de Bruijn stated that he felt that in view of the higher mill rate some services should be provided by the Town general rated that are not provided at this time. Deputy Mayor Gibbon stated that he felt that the garbage charge was vital to the Town's revenue.

A motion that the surcharge for garbage collection be dropped, effective the last two billings in 1967 was defeated. Also one to refer it to the Finance Committee for recommendation and one to table it until the next meeting.

Mr. Fleming introduced a report regarding the appointment of a social welfare director and also advised Council that this was a confidential report which should be considered in a closed meeting of council.

A report from Mr. Billings, was introduced regarding this subject. Council felt that it was discriminatory to supply the names to the Welcome Wagon and not to the other merchants. Deputy Mayor Gibbon stated

Letter to the Editor

AMALGAMATION.

Dear Sir:

At long last the question of amalgamation with the City of Edmonton is out in the open where it can be properly discussed. I believe there is a growing interest in this most important issue.

The issue is, however, of far wider significance than that of the rapidly increasing tax burden borne by our citizens, important as this is. It concerns greater matters than questions of autonomy over education, recreational and essential services, closing by-laws and the like. For though it concerns us as a community, it actually focuses attention upon the issue of metropolitan development in Alberta as a whole. Consequently, we may hope that it may stimulate the government to consider carefully the effect of its own policies. It will raise an issue with the City of Edmonton, is amalgamation pure and simple the solution? It should draw the attention of the public once more to the position of the County of Strathcona, which has so far escaped its proper financial responsibilities with respect to the metropolitan area.

For my own part, I hope the citizens will take a lively interest in the debate. We are inseparably a part of a metropolitan area which must, if it is to develop in an orderly way, have an up-to-date mode of government. The whole concept of municipal boundaries in a metropolitan area comes from the days of the horse and buggy and should have died with it. Furthermore, amalgamation settles nothing. It is only a temporary adjustment, not a solution. What is needed is an orderly plan for the growth and development of greater Edmonton with the necessary administrative authority to ensure that regional matters come under regional control and that local autonomy is preserved over those purely local decisions where it can best serve the citizens. Given this, we may expect that taxes in the region (Greater Edmonton) may be levied equitably and justly spent for the benefit of all the citizens of the region.

G. B. Dawkins,
St. Albert.

Candidates

Continued from pg. 2

been asked on several occasions to run for council, this time it was not such a problem to make up his mind. He had never served on council before but said the taxes have become too high for all to carry any further. This is a real problem. He blamed the citizens of St. Albert for this situation as they demand high cost facilities. When talking of inviting industry to St. Albert he asked if any one in his right mind would come to St. Albert now with the tax ratios so different between here and Edmonton. "A couple of mills would make no difference as we all love to live in St. Albert but the present difference is far too great," he said.

He went on to say he thought the arena should be delayed until the financial picture is better and the money should be used to pay off debentures. St. Albert being a dormitory town with a high ratio of children he felt the town should come to some agreement with Edmonton to ease the burden.

JOHN BAKKER

Mr. Bakker opened his remarks with the statement that it was a risky job to draw up a platform. His last platform called for the University here, an AGT building, also a research building here. It called for changes in recreation and he had tried to hold the mill rate at 70 and 1/2 mills, all were unsuccessful so he now asked for the citizens votes so he could succeed in some thing. Seriously, Mr. Bakker went on to explain, that for every \$1.00 paid to St. Albert 42¢ is under their control. If throwing tomatoes he said only throw 42% as others should get the other 58%. He questioned why it was all wanted to compare St. Albert to Edmonton instead of to Lac La Biche with a mill rate of 75 or Valleyview with one of 76. Edmonton has 19.4 mills coming in from utility and other benefits and when this is added to their 52 mills they do not look that good either, he said. St. Albert does not have profitable utilities, there is only one source of money--property owners.

The people are more concerned with the value they receive than the amount they are paying, Mr. Bakker said. He mentioned the dedicated staff at town hall who will have the tax notices out on Oct. 11, one week before elections which may assure any one now on council will not get elected. He said he was in favor of debentures for facilities providing any

of three things were to take place. First if amalgamation comes then Edmonton will have to pay off the debenture. Second if St. Albert continues to grow then there will be more people to pay for them. Thirdly if the dollar value declines then we will be paying off the debt in dollars, that are worth less than what we used to build the facility.

Mentioning the arena he said if the debenture by-law is defeated on Oct. 18 then there will be no arena. Without this facility fourteen agra costs in policing them with nothing to do could mount considerably. As the growth of student population will continue to rise and there is very little more room left at the University, St. Albert should prepare a new brief and be ready for the time the government will find the money to go ahead with the fourth university. St. Albert is looking for the government to give them grants for exempt properties as those owning them are offering a service to the province, Mr. Bakker said in closing.

DICK WHEATLEY

On rising Mr. Wheatley said he was reminded of the saying that death and taxes are inevitable and he hoped that taxes would not be the death of this council. He stated he did not disagree with what others had said but drew to the attention of his audience that the foundation program does make allowances for towns like St. Albert as grants are made on a per pupil basis. For every dollar put into the program by Edmonton they get two back. St. Albert gets three back on every dollar spent, enabling them to have a very good school system.

Lack of utility profits is a big factor here, Mr. Wheatley said. St. Albert has water that loses money and the two money making facilities, gas and electricity are privately owned. Planners of the New Town of St. Albert should have realized the lack of these utilities that pay would create a problem. St. Albert is made up of average and low cost homes with only 7% commercial assessment while Edmonton has 40% commercial so it is difficult to compare St. Albert with Edmonton, especially as Edmonton has one of the lowest city mill rates in Canada. The special problems here must be recognized by the provincial government who must find a formula for us to get a fair share for educating the children of those who are contributing to Edmonton's growth. This is a special problem and the government

must decide or we must amalgamate.

Timing of the arena was unfortunate as it came with the sudden rise in the mill rate. All other towns with a population of 10,000 have an arena for children to participate in Canada's national sport and I will support any intelligent plan to get an arena in St. Albert, Mr. Wheatley said.

The town has budgeted for years for the minimum, taxes have been cut down by borrowing for more than has been needed for certain items and using the surplus for operating costs. This should not be done and so this is the reason for \$40,000. cash surplus being added to the budget.

No time to go into details of the law suits but they have cost a great deal in legal fees and hospital costs have been high as land had to be purchased and other costs taken care of. These will not appear in the future and when they are over there should be money available for an arena.

QUESTION PERIOD

Mr. Bull gave his opinion on the arena saying he felt it was better to have a good recreational policy than juvenile delinquents. He hoped the arena would be built on the highway and away from residential areas. He felt that the federal and provincial governments should assist in financing as well as the MD of Sturgeon. It could be used in summer for agriculture shows and fairs and so on.

Mr. Wheatley said the fate of the \$40,000. in the budget would depend on if the council could live within its budget. If it did then with the approval of the local authorities board it could be used to cover a deficit or even at the end of 1967 for capital costs of an arena.

Mr. Bakker felt that if the by-law to borrow money for an arena is defeated then an arena cannot be built. If it left over at the end of the term then it should stay there he thought.

When Mr. Zuidema was asked what he would do about the law suits he said if he had a lawyer who was taking five years to settle a \$305,000. suit he would get rid of the lawyer.

A questioner was told that the \$3. a month paid for sewer generates an excess of about three or four mills in the form of a disguised taxation but this is paid by all St. Albert residents and is not just the burden of the property owners. The water works has a total deficit of from \$10 to \$11,000. due to the cost of buying water from Edmonton and distributing it here.

Mr. Bull said Urban Renewal would cost \$800,000.

Mr. Bakker stated that council was always ready to encourage local development but they tried to discourage residential development in commercial areas.

QUESTIONS FOR ALL
Are you in favor of garbage charges?
Lukay: Unless a study provides a better way, go ahead and charge.
Bakker: It should go off.
Bull: There will be an att-

Continued on pg. 8

Editorial

Exclusive to the Gazette.

Last year St. Albert residential campaign for the U.C.F., under the leadership of Mrs. William Bishop was the first to go over the top. Mrs. Bishop hopes to do it again.

Citizens of Edmonton, and surrounding communities, especially St. Albert are finding many benefits from their active participation in the United Community Fund's annual single campaign.

The Edmonton Cerebral Palsy Association Handi-Bus daily brings thirteen children to the various treatment centres in Edmonton, including a U.C.F. Agency - the Association for Hearing Handicapped Children. The Red Cross blood and disaster service is as readily available as it is in the heart of Edmonton; the CNIB the St. John's Ambulance First Aid service, youth services - all are open to residents of St. Albert. Most important of all, these services are financed in one single volunteer effort - the United Fund of Greater Edmonton campaign.

However, there are services to which residents of St. Albert must call, such as counselling services, health and specialized agencies, which by their very nature must have the client come to the premises.

All 45 UCF member agencies are making every effort to serve the people who support them - by giving special consideration to the Greater

Edmonton area. "Ask, and you shall receive" is their charitable attitude.

With rapidly growing centres such as St. Albert new residents are sometimes unaware that agencies within Edmonton are "at their service". Older residents should be quick to point this out in the traditional "help thy neighbor" attitude.

It is to be remembered that the U.C.F. is a fund raising organization. Where complaints about the services of one or more agencies are felt, the agency should be contacted direct about any problem. The U.C.F. keeps close control in co-operation with its services about its operational finances, but policy making rests with the agency itself, and sometimes its Provincial or National headquarters if this is the agency's structure.

As always, the UCF needs more workers, volunteer citizens who will keep in the actual canvass. If you are a responsible community minded citizen, who can spare some time, whether you are a housewife, retired or a pensioner, you could gain great satisfaction by calling Mrs. William Bishop 599-8278 and offering to help in many ways. Some tasks can be done right in your own home. Be a wonder worker - offer your talents to UCF for greater St. Albert participation!

Last year's St. Albert's residential campaign under Mrs. Bishop was the first to reach its target!

Comments

by Robert Russell. The Member of Parliament for Medicine Hat H.A. (Bud) Olson has decided to leave the Social Credit Party and join Mr. Pearson's government.

This certainly was no easy decision for a man to make who has served his party faithfully over the years. Obviously Mr. Olson has now reached the point where he feels that he can no longer be effective as a member of a splintered group in the House of Commons and that he can better serve Alberta as a member of the

A.A.R.N. to Nominate

Nurses of St. Albert and District met on Sept. 29, to organize a local chapter of the A.A.R.N.

Twelve nurses of approximately fifty contacted were able to attend. Nominations for the 1967-68 executive will be received by Mrs. A. Hapchyn, 599-3606. Suggestions for meeting programs may be passed on to Mrs. R. Paton, 599-3734, program chairman.

Reinstatement requirements for nurses at various hospitals were discussed. A brief being done on the Status of Women by the A.A.R.N.; and the progress of the St. Albert Municipal Hospital were also topics of discussion.

Registration for the 1967-68 refresher course at the University Hospital will take place Oct. 4 at 8 p.m. at the nurses residence. Call nursing reserve 439-5911 for details.

The next meeting will be on Nov. 21.

Liberal government.

Mr. Olson is a man of integrity who has given commendable service on many committees of the House of Commons. During the last Federal Election he told his constituents that he would support the government if he felt the legislation was in the best interests of his constituency and the Canadian people.

This is a political philosophy that more M.P.'s and M.L.A.'s could well support.

Mr. Olson's decision to join the Liberals also indicates that not all Social Creditors are going to automatically turn to the Conservative Party according to chapter, book and verse of Mr. Manning's book.

empt to remove it just before the election.
Zuidema: People voted for front collection and they should pay for it.
Wheatley: It should be removed.

Are you in favor of amalgamation?

Lukay: If we decide to amalgamate it could take several years, what do we do in the meantime?

Wheatley: Against it but unless the government comes up with another solution then the local authorities board may order it immediately.
Kambouroff: Have not studied the matter so am unable to answer.

Zuidema: Dr. Hanson is making a report, we should wait until we hear this.

Bull: Annexation means taking in your next door neighbor, there is a strip of Sturgeon MD between us and Edmonton which is industrial and they will have to be dealt with in this matter.
Bakker: Must look at the facts—highway maintenance snow removal, community leagues instead of recreation department, street lighting. The advantage of lower taxes and water rates could be short lived as it is now time for re-assessment in Edmonton.

Warnings were given that Edmonton was about to build new streets, overpasses, bridges, freeways and eventually a metro amalgamation could mean St. Albert residents having to pay for these.

What would happen to the mill rate if the schools amalgamated?

Bakker: Financially I do not know but it would provide better educational facilities. However any savings there the school board would spend elsewhere.

Bull: It would reduce costs from 12 to 20%, provide better education and eliminate discrimination.

Zuidema: No personal opinion but did not believe costs would be reduced too much.
Kambouroff: No comment.
Wheatley: Could be a saving up to 20% but this would be spent on better qualified teachers, composite schools and so on so you would only benefit by the by-product but not a reduction in taxes.
Lukay: No doubt the mill rate would be reduced but perhaps people of St. Albert would prefer to pay those few extra mills to have separate schools.

Mr. Bakker explained that a by-law passed that the

town build an open air swimming pool, start an arena and build tennis courts, the pool and courts were built but it was found an additional \$50,000 was needed to build the arena so it was delayed. Now a vote will be taken for the \$50,000 and a second vote for \$30,000 to cover costs of putting in an ice plant.
"Don't vote for the ice plant and turn down the arena," Mr. Bakker said, "or you will put council in a very bad position." A by-law has been passed to cover the first \$75,000 and this is good for five years.

When asked why we pay workmen to re-pave streets on Saturdays at time and a half Mr. Wheatley said as a councillor he was not aware of what was going on in all departments and suggested the question be asked of the mayor.

Water meters are read once a month to keep up with the minimum charge and this procedure pays for the man who does it Mr. Bakker said, even though the bills are only sent out once every two months.

Mr. Penrose sincerely thanked the Chamber of Commerce for their service in providing the opportunity for the public to meet the candidates again this year. Lunch was served.

that he felt that the Town was losing money by not charging a fee for this service.

It was moved the names and addresses of new residents of the Town of St. Albert be made available to the bona fide business men of St. Albert for a 10¢ per name fee.

Following this resolution the councillors debated whether or not the words "bona fide" should be included in same. Mr. de Bruijn stated that in his opinion before businesses could obtain this list of names they should be licensed by the town. He therefore proposed an amendment to the resolution that only the businesses of St. Albert holding a license issued by the town be supplied with this list of names and addresses on request.

An amendment was passed now that the names and addresses of new residents of the Town of St. Albert be made available to those businesses who hold a license issued by the Town of St. Albert, for a 10¢ per name fee.

A letter was introduced to council by Mr. Fleming, from the Edmonton regional planning commission for rezoning a section of land from low density agriculture to

industrial by the Municipal District of Stony Plain. Mr. de Bruijn stated that he felt that this would be adverse to the interests of St. Albert since any more land that is made available for industrial purposes in the peripheral area of Edmonton, reduces the chances of industrial development in St. Albert, on lands now zoned for industrial use. Council opposed this.

Mr. Abram, the Development Control Officer, advised that Mr. Larkee wanted a relaxation of the side yard requirements for a garage and that as Mr. Larkee's house was in a cul-de-sac and since it would not obstruct any view of anyone, he recommended that it should be granted. This was done.

Mr. Fleming introduced to Council the report he had prepared regarding whether or not the Parks and Recreation Department should be joined or whether they should be separated. Report was accepted and the parks and recreation department supervisor was commended for his work.

By-law 30/67 was amended to delete the word "Olivier" and thereby name a street Bellrose Drive.

At this time Mr. Fleming introduced a special report

which had been prepared, setting forth the financing problem of the sewer lagoon, that he had encountered and the alternatives he felt that the council should consider. After much discussion Mr. de Bruijn proposed another alternative, that is that we borrow part of the money from C.M.H.C. and the rest from A.M.F.C. Mr. Fleming pointed out that this could be possible but that the town would have to advertise a by-law for a higher interest rate and might run into opposition. Council then discussed whether it would be possible to proceed on the present by-law and at the same time publish the proposed interest rate amendment. Mr. Gibbon pointed out that should there be opposition to the amending by-law the council might be placed in an awkward position for financing.

There are three main causes of fires, men, women and children.

St. Albert YMCA 1967-68 Program

APPLICATIONS WILL BE ACCEPTED FOR THE FOLLOWING COURSES:

SWIMMING LESSONS: for children 8 years and up, 14 lessons at the West End YMCA, buses provided. Phone West End YMCA 455-2139.

BOYS WRESTLING: Starting Oct. 7, 9:30 a.m. Sir Alexander McKenzie. This class had excellent results last year.

LADIES KEEP FIT: Moved to Albert Lacombe School, Tuesdays at 8 p.m.

MEN'S KEEP FIT: Sir Alexander McKenzie School, Tuesdays and Fridays at 6 p.m.

SWEDISH GYM FOR GIRLS: Thursdays, 7 p.m. Nickerison Elementary School. This year a piano player will be provided. If there are enough applications a second class for girls 13 years and over will be arranged.

LADIES IMPROVEMENT COURSES: A prominent professional instructor will be engaged. Time to be arranged.

Four to Contest Town Council Seats

On Oct. 18 the citizens of Morinville will vote to elect two councillors to the town council. The terms of Arthur Stapleton and Norman Chalifoux expire in October.

Four newcomers to local politics are contesting the two vacant seats on Morinville town council.

PAUL CHALIFOUX: Vice president of the St. Albert Liberal Association, and local school teacher, who owns a lot in Morinville, will make his first attempt in local politics.

VINCENT CURTIS: Prominent business man and chairman of the Frontier Daze who owns and operates a business and maintains a home in town, will contest a seat in town council.

GILBERT J. BODDEZ

Why I am a Candidate

In order for any town to progress a population is required. The population of Morinville is too small for real progress in business and residential development. I believe an effort should be made in the area of residential development. Edmonton is close enough to us for

Running for public office such as town councillor is like voting, it's not only a civic duty but a privilege we enjoy in a democracy. In the time I have lived in Morinville there has been a substantial increase in new housing, but now there is a need for more room to build more houses. There is also a need for land on which light industries can locate

VINCE CURTIS

With my background in "Frontier Daze" and other community and parish work,

GILBERT BODDEZ: An employee of the M.D. of Sturgeon and a sportsman who owns and resides in a home in town, also has declared his intentions to seek a seat on council.

ZED STOREY: An RCAF maintenance mechanic, president of the Morinville Lions Club, and resident of Morinville, owner of a lot in town, will contest the election.

Each of the candidates were invited by the Gazette to publish a short prepared statement for the benefit of all the electors of Morinville. Below is listed the statement of each candidate. We regret that Mr. Storey's photo did not reach us in time to print along with his signed statement.

people to commute. Some people would like to live outside of the city, but unless there is a housing project, the increase in Morinville population will remain as it has been in the past, one or two new homes a year.

More population would stimulate our present businesses and bring new ones. Young parents look at school facilities before they settle in a place. Morinville requires a larger school population in order that the educational facilities required for educating today's youth will become possible.

An increase in population will reduce taxes, improve the educational system and stimulate business. In other words our up to now dormant town will awake and progress.

Gilbert J. Boddez.

and which we should encourage to locate here. There are numerous other ways to improve and develop our community and I think I can make a good contribution towards this goal.

Therefore I am asking for your support in the coming election for town council.

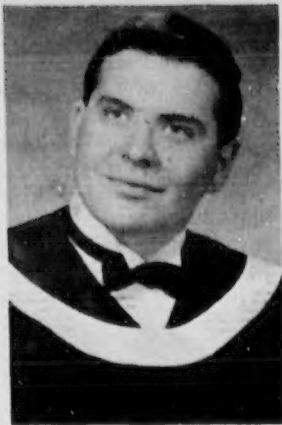

Thank you,
Z. Storey.

and my experience in the business world, I sincerely feel that I have something to contribute to the town of Morinville. I therefore ask for your support in the coming election.

Vince Curtis.

Imports Down

After reaching a record level in 1965-66, world wheat and flour trade in 1966-67 declined by 13 percent to 2000 million bushels. Better crops in communist countries, reduced their need for imports last year.

PAUL A. CHALIFOUX

It's impossible for a novice seeking political office to make specific statements about issues, since he hasn't had the opportunity to study all the facts related to the question, before he commits himself. However, I do have basic ideas about the function of the town and its council:

1) The council must seek to provide the most services for the willingly spent tax dollar.

2) The town must seek to improve its economic base, thereby allowing the council to consider providing more services for all. The council must foster this growth.

3) The council, dependent as it is on limited sources of revenue, must investigate provincial and federal grant structures closely, to obtain funds it can use in the interests of local citizens.

4) I believe there is a need for improved two-way communication between the council and the electorate following election day.

Each of the above points is generally stated, and I welcome a forum by the board of trade which will allow me to elaborate in more detail.

Paul A. Chalifoux.

Mr John Wozny, president of the Morinville Board of Trade informed the Gazette on Oct. 2 that the Morinville Board of Trade plans to hold a public forum for all four candidates in the Morinville Legion Hall, Oct. 11 at 7:30 p.m. sharp, at which time the electors of Morinville can hear the detailed platform of each candidate and ask them questions on the same subject.

NAMAO NEWS

The Namao Teen Club held a reorganization meeting on Sept. 26 in the Community Hall. Elections of officers were held and the results were as follows: Gene Gauthier, secretary; Dave Dowhanluk, treasurer and Marsha LeClaire, Marlene Ash, and Leonard Shultz on the social committee.

An official board meeting of the stewards and elders of the Namao United Church was held on Sept. 27 in the church basement.

All groups are back into the swing of things with CGIT & Explorers groups underway for the winter. Both junior and senior choirs are back under the leadership of Mrs. Clapp.

The local U.C.W. Group 1 will meet Oct. 12 at Mrs. Betty Samis home. Final plans will be made for the Turkey Supper to be held Oct. 28.

Mrs. Keith Everitt Opens New Library

On Sept. 30 in a short morning ceremony attended by a small gathering of Morinville V.I.P.'s and government representatives, the Morinville Centennial Library was formally opened at 10:15 a.m. by Mrs. Keith Everitt, wife of Keith Everitt M.L.A. for St. Albert constituency.

Vince Curtis, centennial committee chairman was M.C., and welcomed the guests and citizens present. Albert Ouellette, acting mayor brought greetings on behalf of the town of Morinville. Mrs. George Clark, chairman of the Morinville Library Board, in a few well chosen words, gave a short resumé of the work already done in the library and invited the public to patronize their new library as soon as the regular daily schedule is announced.

Ted Wiltshire, provincial supervisor of libraries, brought greetings from the government of Alberta. The Edmonton Loyal Regiment Band was on hand and a by pass by two R.C.A.F. planes from Namao were a colorful part of the opening ceremony. Rev. Father George Primeau, pastor of St. John the Baptist R.C. Church recited the invocation and blessed the library. Rev. David Nyre minister of the Morinville United Church also addressed the gathering: "so many things can be said about a book, it can teach each one of us so many things, but most important of all it can

teach us to think. The world is becoming very small" continued the African minister, "three short years ago Africa was just a myth to you all, today an African is talking to you in Morinville."

Miss Jeanette Bauwens, Miss Centennial Frontier Daze of Morinville, was invited by Mrs. Keith Everitt to assist in the ribbon cutting ceremony.

An invitation was then extended to all present to tour the spacious and well lighted building, with its shelves well stocked with a good assortment of books. The children have a delightful selection, while the adult reader will find an up to date catalogue of modern books that will satisfy all tastes in research and reading material.

The library will not open for daily sessions for another month. More cataloguing is to be finished and more furniture is expected by Nov. 1. According to present plans, the daily schedule will be published in good time, and the date of the opening tea will be announced later.

Members of the Morinville Centennial Library Board are to be congratulated for their good work: Mrs. George Clark, chairman, acting mayor Albert Ouellette, John Wozny president of the board of trade, Miss Margerite Sheehan, secretary and councillor Roger Champagna.

Albert Ouellette Acting Mayor

ALBERT OUELLETTE

At the last week's meeting of the Morinville town council after the resignation of former mayor Henry Ramsay, Mr. Albert Ouellette was named acting mayor until the election to be held in November, when a new mayor will be elected for a two year term.

Mr. Ouellette who did the honours on behalf of the town last Saturday, when the confederation caravan was in Morinville, and at the formal opening of the centennial library, is a native son of Morinville. Born here 37 years ago, Mr. Ouellette attended local school then took employment as a mechanic. He is presently an employee of Pelletier & Son Ford Garage. He married Miss Jeannette Caouette of Legal, nine years ago, and is the proud father of three boys, Daniel 8; Paul 5; and Guy, one year old.

Mr. and Mrs. Ouellette built a new modern home last year in the south west end of Morinville, with a large yard and garden. His mother, Mrs. Bernadette Ouellette also resides in Morinville.

The Ouellette's will celebrate their ninth wedding anniversary on October 6.

Honor Students

Mr. Steben distributed a tentative list of Sturgeon School Division Academic Award Winners for the 1966-67 school year at the meeting of the Sturgeon School Division board of trustees at their regular meeting held on Sept. 12 and 13.

Those attending were: school trustees Messrs. McDonnell, Austin, Wilson and Mrs. Hole; superintendent, A. E. Kunst; secretary treasurer, C. Krauskopf.

The award winners are: Grade IX Honors Pass; Gerald Denis Paradis, Elaine Dianne Tomten. Honors standing in three or more subjects: Barbara Lynn Paradis, Linda Dianne Rub-

ullak, Elaine Soetaert, Martin Soetaert.

Grade XII - Students who achieved an average of 75% or better in five departmental examinations with none of the five subjects below 60% are: Kenneth F. Miller, Evan Hugh Miller, Dianne Mary Soetaert, Kathleen Stewart, Theodore Kaklin, Stella Mary Killan, Norma Rigney.

The first four above listed students qualifying for Sturgeon School Division Scholarships.

Ken Dohel and Walter Herbold were now in attendance and gave a report on school maintenance and painting program.

Mrs. M. Ratcliffe, upon invitation, came before the School Board and was presented with a gift, by the Chairman, Mr. Wilson, upon her retirement from teaching.

Gun Safety

As the hunting season gets underway, youngsters will be going out with their parents, some for the first time, to learn how to handle a gun. The Sturgeon Health Unit suggests a list of fundamentals in gun handling for them to remember. Others already introduced to the sport would do well to review them, to be sure they haven't developed dangerous habits.

The first commandment in using firearms is never point them -- loaded or unloaded -- at something you don't intend to shoot. In so many cases, a grief-stricken companion begins

Continued on Page 3

NOTICE

MUNICIPAL DISTRICT OF STURGEON NO. 90

Attention cattle owners of this municipality; now is the time to treat your beef cattle for warble and louse control. The Agricultural Service Board has a campaign with the farmers in division #5 to attempt to establish a Warble Free Area. A Field Day will be held on October 10, at 1:00 p.m., at the farm of Mr. Lawrence Kluthe (4 miles north, 4 miles west and 1 mile north of Morinville) to demonstrate various means of control - Everybody welcome to attend.

Alphonse Nobert,
Secretary of the Agricultural Service Board

Father Primeau invokes a blessing on Morinville's new centennial library, while emcee Mr. Vince Curtis looks on at right. The official opening of the library was fittingly timed for the centennial celebrations planned for the Caravan day. Gazette Photos by Dianne Martel

Pictured above at the opening ceremonies of the Centennial Caravan in Morinville are the distinguished platform guests, Mr. Bud Salom, Provincial Centennial Committee is seen at the microphone, with Vince Curtis, master of ceremonies at his right. Unintentionally giving a pleasing balance to the photo are the two tall gentlemen: Sgt. W. Reinhold of the RCMP, St. Albert detachment at far left, and Father George Primeau of St. John the Baptist parish, Morinville at far right. The lady at far left with attractive hat is Mrs. Keith Everitt who officially opened the Library Saturday morning.

Morinville Memos

Mrs. Eugene Cournoyer is now residing in Morinville with her son Paul. Last week her sister Lea, Mrs. Lionel Chalfoux from McLellan suffered a severe stroke and is now resting in Edmonton General hospital.

Rev. Father Armand Beaupre announced this week that a special weekend retreat at North Star House in St. Albert will be held on Thanksgiving. Any high school student or district young man who wishes to attend this short retreat, are invited to contact Rev. A. Beaupre as soon as possible or Renee Chevalier at Morinville.

Two lucky people, Mr. and Mrs. Maurice Chevalier (nee Miss Billo) will fly to Athens, Greece on Oct. 6 on a free trip, results of a sales promotion deal won by Mr. Chevalier.

The Morinville United Church Ladies Aid held their

Recently Mr. and Mrs. Milton Fawcett of 11 Balmoral Drive, St. Albert and Mr. and Mrs. C. Fulton, Alcomdale attended the Graduation Exercises of Mrs. Russell Fawcett at Red Deer, Alberta Training School.

Mr and Mrs Russell Fawcett of Pembina Provincial Park spent the weekend with Mr. and Mrs. C. Fawcett of Morinville.

annual meeting recently. Mrs. Lloyd Granger was re-elected president for another term of office. Mrs. Borge Carlson is vice pres. Miss Violet Weiss secretary treasurer. Congratulations ladies for your good work in the community sharing the chores in many projects

A warm welcome is extended to Rev. David Nygire African United Church minister now serving in Morinville. Rev. Nygire was first introduced publicly Sept. 30 and took part at the opening of the centennial library and caravan. Rev. Nygire has been three years in Edmonton and came to Canada in 1961 from his native Africa

The usual greeting on Oct. 2 was "Merry Christmas" as the first snow of the month made a cold wet appearance in the district. Well we are still in Alberta folks, not Hawaii, and we sure cannot complain about September being cold and wet now, can we folks? Let us be very grateful and count our blessings on Thanksgiving.

Mrs. Louise Devolder has been a patient in Edmonton hospital since last week.

Mrs. Ann Masyk recently returned from the National CWL convention in Montreal where she was an official voting delegate from Alberta.

While there she gave Expo a quick look and see tour.

Morinville IGA installed brand new controlled fresh vegetable and fruit display cases. That means fresh lettuce and celery and other winter greens for Morinville customers.

On Oct. 28 the Edmonton Central Lions Clubs will hold their combined Charter Night at the Mac, Lion Arthur Stapleton will M.C. Advance tickets on sale in Morinville - \$6. per person.

Miss Jeanice Pelletier, honour high school student at George Vanier, has returned from a week long supervised trip to Expo with a group of Edmonton students. Why was there not a group from Thibault School organized? Is the question that many parents of high school children would like to know.

Mr Arthur Logan was admitted to Edmonton hospital last week, a result of poisoning from sand flies at Uranium City in the N.W.T. Well, Arthur, after the cold weather and snow fall in the far north and here, nobody will be bothered with mosquitoes and flies until 1968.

Mrs. Mike Hittinger produced a carrot 14 inches long weighing 17 ozs. from her garden on Monday. Any challenges for a bigger one grown in the district? Any outsized cabbages or potatoes?

Mr. Albert Cormier suffered a severe stroke last Thursday at his home. He is a patient at the General Hospital.

Mrs. George Vranas is recovering from an operation in the same hospital.

Highlights of the big show on Saturday when the caravan was in Morinville and at the formal opening of the centennial library. Two mongrel dogs stole the show at the library opening, officials were a bit annoyed at their vocal contributions, and more nervous about their playful antics. Get your dog catcher to work, Mr. Mayor.

Dr. Norman Dolman was a welcome visitor, but surprised many acquaintances when he greeted them in his handsome Loyal Edmonton Regiment uniform, as part of the guest band.

Lady Patricia played a new role on Sept. 30 when she welcomed her first grandson George Parker Junior, and was seen in the role of a doting grandmother, diaper in hand and all.

Mr. and Mrs. George Parker and family were home town visitors last week with their two children, George is a University student this year as he intends to make teaching his career. Good luck, Buttons, it was nice to chat with you and your lady, and meet your children.

\$4.25 MILLION

Loss in Broken Eggs

The path of poultry research is littered with the shells of 30,000 eggs at the University of British Columbia.

A UBC research team has been cracking eggs at a rate of 10,000 a year for three years and project leader Dr. James K. Richards estimates they will maintain the pace for at least another three years.

The aim of it all is to produce a better egg shell, more durable package for the chicken's hard work.

"Broken shells cost the B.C. poultry industry about \$600,000 a year," said Dr. Richards, assistant professor of poultry science at the UBC department of agriculture.

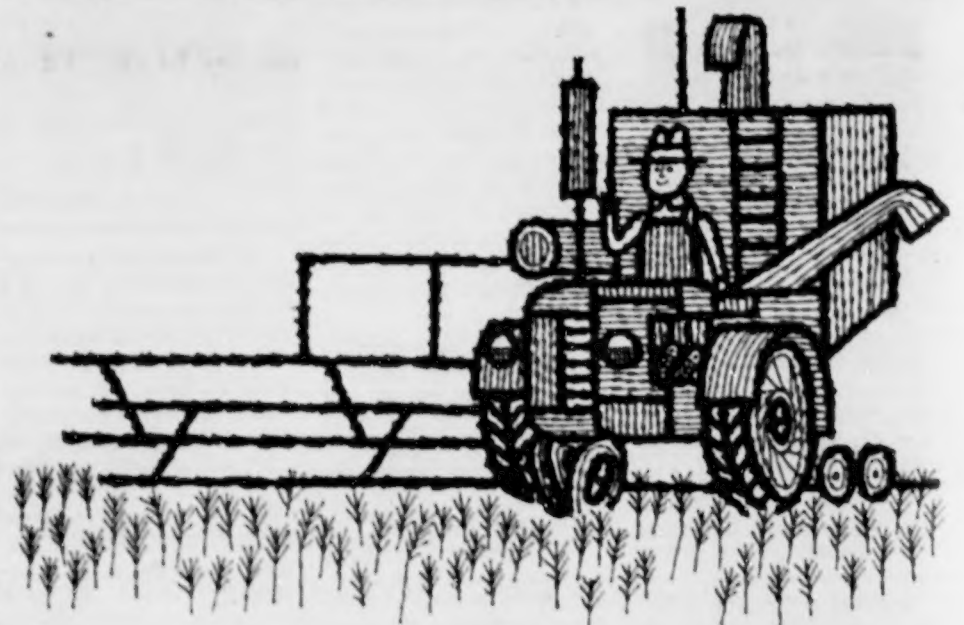

"The figure for all of Canada is about \$4,250,000. Between 6 and 8 per cent of all eggs produced are cracked somewhere between the hen and the consumer."

Shells with more give are more likely to go splat under pressure.

SUCULANT RELATIVES

Dar Es Salaam - A 50 year old man told a Tanzanian court he developed an "irresistible desire for human flesh" after killing and eating his father, wife and three children.

"I killed and ate only members of my own family" he told a court at Njombe, "so who was I offending?"

Centennial Caravan Enjoyed in Morinville

On Sept. 30, 5,256 visitors signed the guest book at the confederation caravan in Morinville. After the local official party had assembled on a platform, for a short opening ceremony, Miss Centennial Frontier Daze, Jeannette Barwens, sounded the "O Canada" on the caravan horn.

Among those present were chairman Vince Curtis, acting mayor Albert Ouellette, Bud Salom, representative of the provincial centennial committee, Rev. Father Primeau, Rev. Nygire of the United Church, Reeve of the M.D. of Sturgeon, Mr. Stanley Walker and Mrs. Walker and a group of local belles, in Frontier Daze costumes and beautiful corsages.

Mrs. Keith Everitt brought greetings on behalf of her husband, Keith Everitt, M.L.A. who was unable to be present. Sergeant Wilfred Reinhold of the St. Albert R.C.M.P. detachment was also present.

The Edmonton Loyal Regimental Band presented a short concert. From 12 noon till 10:30 p.m. a Pot-pourri of live talent entertained visitors in the Morinville Centre. Some 250 visiting and local performers passed in revue on the local stage.

Two displays were inevitable; one was from the Eagle Patrol of the Morinville Scouts, and the other was the Sea Rangers from St. Albert. NAIT brought their oopick and Al Oeming contributed an elephant for the children's ride. Ponies were also a delight to many children during the afternoon.

A special salute to Mrs. Joe Calder and all the ladies who put in long hours to feed the crowd at the Morinville Centre. Distinguished visitors were hosted to a luncheon at the Legion Hall, some 40 to 60 in number.

Above photo shows one of the exhibits in the Caravan.

GUN SAFETY

Continued from Page 1

his explanation of a shooting accident by saying he didn't know the gun was loaded. It's too late then to say he's sorry he made a mistake. Hunters are advised to be sure the movement they want to fire at is actually the animal they are after, not a dog or another hunter silently stalking game.

Other important points listed:

1. Load your gun outside the car, just before beginning the hunt. Unload it before getting back in the car.

2. Keep the safety catch on as you walk, slip it off as you raise the gun to your shoulder.

3. Walk with the barrel pointing into the air or away from hunting companions.

4. When crossing fences or other obstructions, set the gun safely aside where it won't slip or be nudged, pick it up by the stock once safely over.

5. Quit when you're tired.

Left to right standing: Mrs. P. Popko, Mrs. J. Boyd, Mrs. G. Jones, Mrs. J. Sharpe and Mrs. M. Abell. Seated: Miss E. Bullock, Miss E. Zimmerman, Mrs. S. Bernard, Mrs. J. Felstad and Mrs. G. Law.

Sturgeon Health Unit

Today we introduce the nursing staff.

Sturgeon Health Unit employs 10 public health nurses six in the main office in St. Albert and four in the sub-office in Westlock.

Public health nurses have completed their basic course in nursing and successfully passed their R.N.

examinations. In addition they have taken further preparation at a university in public health nursing.

Public health nursing is a family centred service and the nurses are well equipped to help you with health problems of your family, through the clinic, school or home visiting programs. Her aim

is to prevent illness, mental or physical.

Mrs. G. Law is the nursing supervisor of nurses and she services the Horsehill and Namas areas surrounding St. Albert. She also looks after the Sturgeon heights area in the town of St. Albert. Mrs. S. Bernard looks after the Calahoo, Riviere Qui Barre, Legal areas and Mission Park in the town of St. Albert.

Mrs. M. Abell has joined us again, after a year's leave of absence to obtain further preparation at university. She will be the nurse looking after Morinville, Bon Accord, Gibbons and part of Grandin Park area in the town of St. Albert. Mrs. J. Sharpe has for her area, Railway, Redwater and part of Grandin Park in the town of St. Albert.

Mrs. J. Boyd will be taking public health nursing services to Thorhild, Newbrook and Braeside in the town of St. Albert.

Mrs. G. Jones is one of the four public health nurses in the Westlock office. She gives nursing service to the town of Westlock and the towns and villages in the southern part of Westlock, M.R.

Miss E. Zimmerman is now after a part of Westlock and the area north of the town in the town of St. Albert and Westlock.

Mrs. J. Boyd and Mrs. J. Felstad have recently joined the nursing staff in the Westlock office. They will be looking after the County and the town of Haysview.

Your public health nurse is there to help you, please contact the nurse in your area if you have any health problems.

Symphony Week

This week is Symphony Week. The week is designed to focus attention on one of the city's most worthwhile organizations - the Edmonton Symphony Orchestra.

The orchestra, under the directorship of Brian Priestman, is all set to embark on "Season Sixteen". It has been sixteen years since the orchestra was formed. Since that time it has greatly enriched the cultural heritage of our city.

Not only has the Edmonton Symphony Orchestra been a source of pleasure to the citizens, it has also played a significant role in the encouraging of junior musicians. Many aspiring young people have gone on to achieve great success in their chosen musical fields through the monetary help and every-ready encouragement given them by the Edmonton Symphony Orchestra.

"We look forward to the finest season ever" said David McDonald, president of the Edmonton Symphony Orchestra. "With the support of the music lovers of this city, Season Sixteen is destined to be a turning point in the life of Edmonton Symphony Orchestra as it takes its place as one of the great professional orchestras of Canada."

At the Citadel

The upcoming season at The Citadel Theatre will be one of the "most pulsating and energetic theatrical programs ever attempted in Western Canada," according to Artistic Director Robert Glenn.

Three dramatic plays will be presented: Tiny Alice, Ramp and Redia Gahler; a musical, A Funny Thing Happened on the Way to the Forum, and three comedies: Barefoot in the Park, The Owl and the Pussycat and another to be announced later.

"Last season there were roughly ten days between productions when the theatre was dark," Mr. Glenn outlined. "This year, we will close one production on Saturday, and open with a new one on the following Wednesday."

During the first "dark" week in January, the house-lighters—the ladies' auxiliary to the theatre—will present a play for three successive nights. The play will be Clare Booth's "The Women," which has 30 acting parts.

In February, a ballet production is expected to be

HOW FIRE-SAFE IS YOUR HOME?

Last year Canadians ran up a staggering fire loss of over 153 million dollars. Terrible as this property loss is, the waste of human life is even worse. 571 Canadians died in 1966 as a result of fire!

Three-quarters of all fires happen in the home. Be on guard all the time!

Psychiatry, A Science

The outworn phrase "Get your head tested" may become fashionable again as psychiatry grows up. The problem up to now has been that mental disorders can't be precisely defined so that diagnosis is often inexact and depends on the individual views and impressions of the doctor. Sometimes a deliberately vague diagnosis has to be given merely to satisfy hospitalization requirements. And without accurate diagnosis there can be no useful prediction of the outcome of treatment.

Hitherto psychiatry has been the only branch of medicine which lacked a scientific laboratory. Gallileo called science the measurement of the measurable. What activities of the mind can be measured and with what tools? What is normal behaviour and what is abnormal?

Already measurements are used to help us make important decisions; for example, in estimating children's scholastic abilities, in selecting personnel for key jobs, in Gallup polls

and market research. Not much use of measurement has been made in clinical psychiatric practice but nevertheless 'scientific psychiatry' has progressed beyond its infancy and is beginning to grow. Some techniques are highly complicated but other relatively simple tools are gradually being developed which require comparatively little training to administer and have guides to interpretation built in. As examples, degrees of anxiety or depression, moodiness or personality traits can be assessed and the effects of various drugs measured.

Tests given round about the age of 65 can predict with reasonable accuracy those persons whose mental health is likely to breakdown during retirement. Another interesting possibility is the screening of whole populations for undetected mental illness. A series of 20 straightforward questions mounted on cards and answered by putting them into boxes labelled "Yes", "No" and "Don't know", can pick

out those needing treatment for emotional problems. At present this test has an accuracy of about 80% but improvements are sure to follow.

In the mid-nineteenth century physicians were crying out for laboratory medicine. Now psychiatry faces the same problem. The prototype techniques are available and with more clinical experience we may have 'laboratory psychiatry' to guard our mental health.

CANADA SAVINGS BONDS

The Bank of Canada announced that Eric M. Duggan and Arthur E. Gregg will be in charge of the payroll plan of the Canada Savings Bond drive in Northern Alberta which begins this week and runs until mid-November.

These two dealers have played a key role in the sale of more than \$90 million in Canada Savings Bonds. Mr. Duggan has been an organizer in every bond drive since Canada Savings Bonds were introduced in 1946. Mr. Gregg is entering his 16th consecutive campaign.

This year's CSB issue will have three new features: A starting interest rate of five and quarter per cent, the highest initial return ever on a Canada Savings Bond; a broadened eligibility which for the first time will allow corporations, businesses, churches, trusts, clubs, charities, etc., resident in Canada, to purchase the bonds; an increase in the maximum amount of the issue which one purchaser may hold -- \$50,000 compared with last year's \$10,-

000 limit.

Purchasers will be able to double their money over the 13-year term of the new series if they choose the compound interest option similar to that introduced last fall with the Centennial issue. The interest yield is an average of 5.48 per cent if the bonds are held to maturity.

Alcohol to Blame Not Slow Traffic

Provincial Coroner Max Cantor charged the Edmonton Journal with irresponsibility in its reporting and its editorials.

Dr. Cantor said at an inquest into the five fatality accident on highway two, he was "quite happy" to see the City of Edmonton not bowing to Journal pressure for construction of a divided highway inside the city limits. The provincial government announced construction of a divided highway outside the city limits would be speeded up and in the meantime, reduced the speed limit from 65 to 50 miles per hour, after the Journal's report of the accident and story stating 17 persons had been killed on the stretch in the last two years.

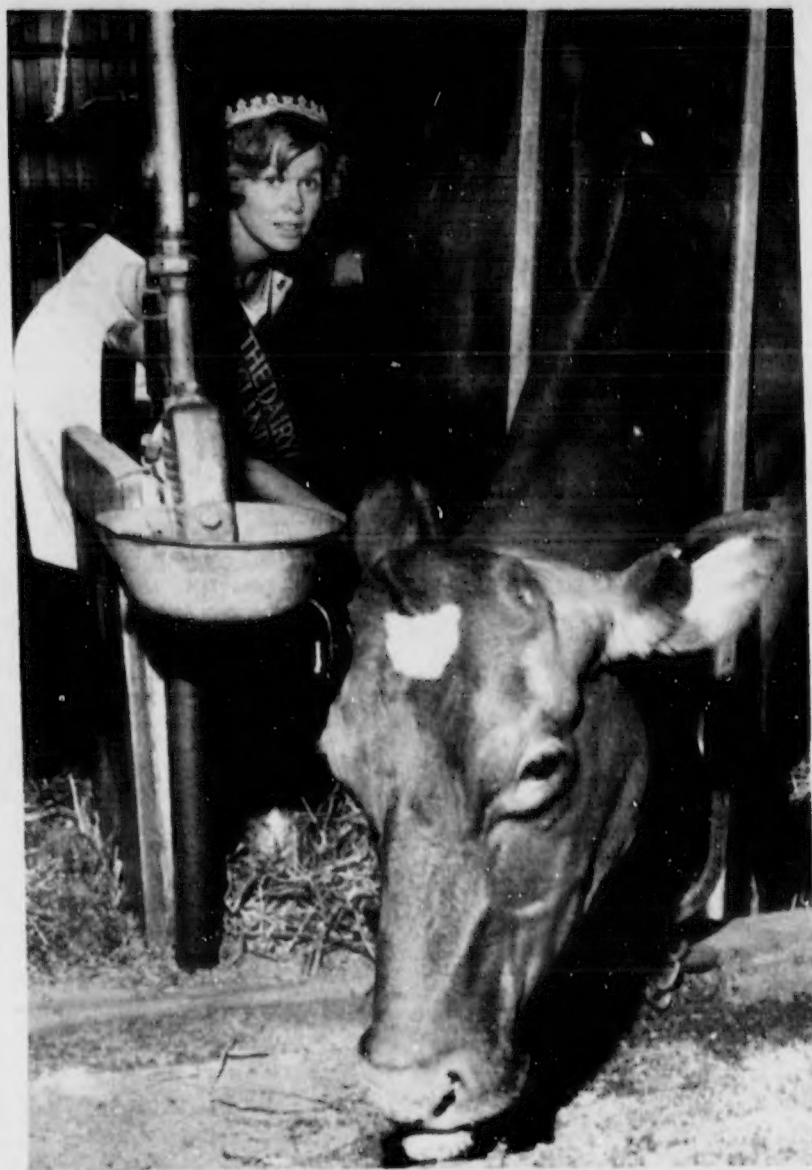

Dr. Cantor said that in fact 18 people had been killed but the Journal missed the key point in the accidents.

Dr. Cantor said eight of the dead drivers had alcohol counts ranging from .12 to .3 percent in the case of Ken Toma, the man blamed for the five fatality accident. Three pedestrians killed on the same stretch had alcohol counts of .04 to .16 percent.

Dr. Cantor said that on a divided stretch of highway two, in the Leduc area, seven people have been killed this year in four accidents. Alcohol was involved in three of the accidents.

Another example given by Dr. Cantor was highway 16, Edmonton to Wildwood, where out of ten fatal accidents, impairment or intoxication was involved in either driver, passenger or pedestrian in six of the accidents.

Dr. Cantor also told the jury, out of 162 traffic fatalities in 1966, 93 drivers were checked for alcohol.

Christine Glns, Dairy Queen of England and Wales confirms that the business end of this milker at the Central Experimental Farm is similar to those at home. The pretty visitor to the Canada Department of Agriculture headquarters won her title against 6,000 competitors.

Thirty-nine persons died in fires in Alberta last year. Eleven of these died in fires caused by careless smoking habits.

Legal Locals

"Les Voyageurs" the Legal group dressed in their Fete au Village attire had the pleasure to entertain with several vocal numbers in Morinville Sept. 30 and also gave the group the opportunity to tour the centennial caravan.

Leslie Halter was taken to the hospital last week following an accident with his scooter.

Mr and Mrs Albert Stack from Vancouver were week end visitors at the home of his sister Mrs. Kathleen St. Martin.

Mr and Mrs Leon Brisson welcomed the visit of Mr. Brisson's grandfather Mr. Alfred Ouellette from McLennan last week.

Mr. and Mrs. Maurice Regimbald are receiving

HON. HARRY STROM

Agriculture Minister Harry Strom has been appointed Vice-Chairman of Alberta's Treasury Board, replacing Welfare Minister A. J. Hooke.

The change follows a recent cabinet shuffle which included appointment of Mr. Strom as the first acting treasurer. Mr. Hooke retains membership on the treasury board.

The other members are Provincial Treasurer Anders Aalborg, who is chairman, Industry Minister Russ Patrick, Public Works Minister Fred Colborne, Education Minister Ray Reilson and Provincial Secretary Amrose Holowach.

congratulations on the arrival of their first child Norman born on Sept. 19 weighing 6 lb. 8 oz. Mr. and Mrs. Jean Regimbald of Westlock were godparents.

Village councillors Joseph Nault and Roland Prefontaine have been re-elected by acclamation.

Other Legal residents fortunate enough to visit Expo are Mr. and Mrs. Eloie Proulx and Mr. and Mrs. Robert Montpetit and daughter Judy.

A number of friends surprised Mr. and Mrs. Marcel Therrien at their residence for a farewell party. Mr. and Mrs. Therries and family are moving to Moose Jaw, Saskatchewan.

Mr. and Mrs. Leonard Lavoie are welcomed to the community. Mr. Lavoie is

C.W.L. Meet

LEGAL

Now that vacations are over and a very busy and exciting "centennial" summer is in the past, its back to work for most of us. And so the St. Emile council of the C.W.L. of Legal held their first autumn meeting on the evening of Sept. 18. An accumulation of unfinished business was dealt with and a few plans for future activities were discussed. Mrs. G. (Florence) Inaghebur reported that food, clothing and books were desperately needed in missionary countries, therefore those interested and able to contribute should contact Florence re address etc. Also the Marian Centre in Edmonton is grateful for donations received. With winter drawing near, much more food and clothing will be required to carry on the centre's work.

Keeping reliably posted on the news and activities of the Catholic world is a must today for Catholic families. Bring the Western Catholic Reporter into your homes and read it. For those seeking information re subscriptions, see a member of your C.W.L.

4-H Clothing Club Reorganizes

LEGAL

On Sept. 29 the 4-H Clothing Club held their reorganization meeting at the recreation centre with fifteen girls present. Most of the members were accompanied by their mother for the first meeting.

The leader Mrs. Claire Demers welcomed all the members and mothers. She also outlined the year's program. Her assistant leaders are Mrs. Therese Auger and Mrs. Fernande Van de Walle.

The elections for club officers were held and the following were elected: president, Cecile Caouette; vice pres., Rachel St. Martin; secretary and junior leader, Sylvia Auger; treasurer, Henriette Auger; club reporter, Dolores Prefon-

taine; club representative, Rita Tieulle; junior leader, Simone Demers. The other members are: Louise Caouette, Cecile Van der Walle, Rita Larose, Carmen Boissonneault, Rita Laframboise Marjolaine Chamberland Diane Gerla and Debra St. Jean.

After the meeting was adjourned lunch was served. The next meeting will be Oct. 13 at 4 p.m.

An estimated 300,000 men and women are unpaid workers for Canada's united appeals and community chests. Last year, in 135 of these campaigns, they raised over \$45 million for some 2,200 health and welfare agencies.

MORINVILLE AUCTION MART.

4-H club members from Canada and the United States were guests at the Canadian Pacific-Cominco pavilion at Expo '67 recently. Some 250 young people representing the ten Canadian provinces and 22 of the American states attended a seminar in the Laurentians prior to their visit to Montreal and Expo. They are shown here indicating either the location of their own home town or

that of one of the participants at the seminar. Left to right: Charlene Wicks, Montana; Beverley Dobson, Alberta; James Moore, Saskatchewan; Shirley Clark, St. Albert, Alberta; Lyall Edgerton, Manitoba; Sonja Wold, North Dakota; Robert Rodger, Quebec; Raymond Billings, Vermont; and Judy Read, New Brunswick.

World Championship at Speedway

The 1967 Racing Season at Speedway Park is winding up with the biggest gala spectacular ever to be pre-

sented in Canada at the brand new strip just recently completed.

Determined eliminators from Canada and the US will be challenging tough competitors for top performance honors along with the trophies, money etc.

Oct. 8 - Sunday's races will include qualifying record runs and stock-class trophy runs. Entries range in classes of top fuelers to competition to stock.

Oct. 9 - Action packed contested runs by eliminators from Sunday's races will battle their way, each to clinch the "winners glory" for their own. A full 8 car field of AA/Fuel and a full 3 car field of AA/Gas dragsters will be the main event of the day.

Tickets are available at Mike's News Stand and will also be sold at the gates the day of the races.

Gates open at 8 and 11 a.m. for spectators.

Unwanted Children

The number of children being made wards of the Provincial Government has been described as alarming by Deputy Welfare Minister D. W. Rogers.

Public Competitions winners: Wild Flower Bouquets: Left to right - Marsha Rigney, 8, Grade 4 student who placed third, her lovely bouquet is shown on the table. Next Peter Chubb, 10, Grade 6 student who placed second, is shown holding his colorful display and to the right the grand winner Patricia Chubb, 8, Grade 3 student who had a pretty arrangement of wild flowers in a low pottery vase. Bon Accord 4-H

Mr. Rogers said the number of hardship cases has levelled off at about 200 a month. Half the number are children born to unmarried mothers and remainder are children surrendered because of neglect.

Mr. Rogers said while the government has been taking in 2,500 children annually, all but 400 are being adopted.

Mr. Rogers felt the number of unwanted children could be reduced with a more realistic outlook on family planning, in particular changing the criminal code to allow distribution of information on family planning.
